

EDUCATION

Cornell University *Ithaca, NY* **Aug 2022 – May 2024**
(ongoing)

- **Master of Science** in Computer Science (Thesis Track) GPA: 4.0 / 4.0
- **Graduate courses:** Computational Sustainability, Advanced Topics in ML, Advanced Programming Languages

Indian Institute of Technology Bombay *Mumbai, India* **Aug 2017 - May 2021**

- **Bachelor of Technology** in Computer Science & Engineering with **Honors, Minor** in Artificial Intelligence & Data Science
- GPA: 9.68 / 10, Honors GPA: 10 / 10, Minor GPA: 9.4 / 10

WORK EXPERIENCE

Software Engineer, Samsung Electronics *Suwon, South Korea* **Sep 2021 – Aug 2022**

- Key role in developing high-performance, low-latency physical layer for 5G wireless communication as a member of Physical Uplink Shared Channel team, focusing on core-cycle and cache bottleneck optimization.
- Utilized Intel® Intrinsic (AVX-512) for efficient parallel processing of data
- Reduced bottlenecks in uplink signal processing pipeline to achieve upto **20% speedup**

Network Engineer Intern, Samsung Electronics *remote from India* **Jun 2020 – July 2020**

- Built an automated network load testing framework using **Locust & Kubernetes** to evaluate performance of Samsung's in-production load balancing services

Summer Research Intern, TU Braunschweig *Braunschweig, Germany* **May 2019 - July 2019**

- Built **WeLineation**, an application utilizing **Expectation Maximization** for sclera segmentation from crowd-sourced data.

TEACHING ASSISTANTSHIPS

CS3410: Computer System Organization & Programming *Cornell University* **Fall 2022, Fall 2023**

CS4820: Introduction to Analysis of Algorithms *Cornell University* **Summer 2023**

CS2770: Excursions in Computational Sustainability *Cornell University* **Spring 2023**

CS251: Software System Lab *IIT Bombay* **Fall 2019, Fall 2020**

MA105: Calculus *IIT Bombay* **Fall 2018**

Won TA awards for Fall 2020 and Fall 2022

PUBLICATIONS

- **Improving low resource code-switched ASR using augmented code-switched TTS** Y. Sharma, B. Abraham, K. Taneja, P. Jyothi [INTERSPEECH 2020]
- **WeLineation: crowdsourcing delineations for reliable ground truth estimation** S. Goel¹, Y. Sharma¹, M.L. Jauer, T.M. Deserno [SPIE Medical Imaging 2020]

RESEARCH EXPERIENCE

MS Thesis Research - Prof. Sanjiban Choudhury *Cornell University* **Feb 2023 – (ongoing)**

Leveraging vision-language models and GPT for low-level robot code generation

Undergraduate Thesis - Prof. Preethi Jyothi *IIT Bombay & Microsoft* **Aug 2020 – Jun 2021**
Improving code-switched Automatic Speech Recognition²

Developed a new Gujarati-English **speech recognition** model conditioning the transformer on language of the text

Improving Low Resource Code-switched ASR using Augmented Code-switched TTS² **Dec 2019 – Jun 2020**

Used E2E Automatic Speech Recognition models trained on Hindi and English monolingual data and code-switched Text to Speech (TTS) to improve performance in low-resource settings

R&D Project - Prof. Amitabha Sanyal *IIT Bombay* **Fall 2020**

Implemented an automated debugger for GCC plugin designed to detect bugs in C program translation

LANGUAGES AND SOFTWARES

C/C++, python, bash, JavaScript, OCaml & Haskell, Java, SQL, PyTorch & TensorFlow, AVX, Git, Perforce, Linux, Docker, MATLAB, Dart

KEY PROJECTS

Modelling misinformation in hierarchical organizations; Prof. Jon Kleinberg; Spring 2023 *Cornell University*

Few-shot action recognition on egocentric data; Prof. Kilian Weinberger; Fall 2022 *Cornell University*

De-mixing techniques for cocktail party problem on bird calls; Prof. Carla Gomes; Fall 2022 *Cornell University*

Low Resource Morphological Inflection 2021; Evolutionary RL on maze solving 2020; *IIT Bombay*

¹Equal contribution

²Work done as part of collaboration between Microsoft India Development Center and Indian Institute of Technology Bombay
